

# Generic Drug Savings in North Dakota

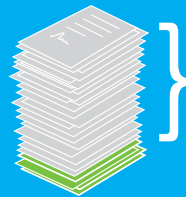

Generic medicines drive savings, not costs. Generics saved North Dakota **\$626 million in 2015**, according to the 2016 Generic Drug Savings & Access in the United States report compiled by the QuintilesIMS Institute on behalf of the Generic Pharmaceutical Association (GPhA).

Medicaid:	\$59 million
Medicare:	\$163 million
Cash (Non-Insured)	\$71 million
Commercial Insured:	\$332 million
<b>Total</b>	<b>\$626 million</b>

Generic drug manufacturers are true drivers of health system value – enabling access to safe and effective generic medicines for patients, public programs, taxpayers, employers and others. GPhA welcomes the chance to work with policymakers, regulators and stakeholders to increase generic competition and expand patient access to more affordable medicines.

## Generic Drug Savings in the U.S.

Generics are 89% of Prescriptions Dispensed but only 27% of Total Drug Costs
