

Generic Drug Savings in South Dakota

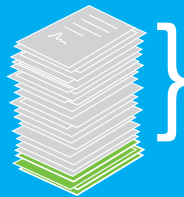

Generic medicines drive savings, not costs. Generics saved South Dakota **\$583 million in 2015**, according to the 2016 Generic Drug Savings & Access in the United States report compiled by the QuintilesIMS Institute on behalf of the Generic Pharmaceutical Association (GPhA).

Medicaid:	\$49 million
Medicare:	\$176 million
Cash (Non-Insured)	\$55 million
Commercial Insured:	\$301 million
Total	\$583 million

Generic drug manufacturers are true drivers of health system value – enabling access to safe and effective generic medicines for patients, public programs, taxpayers, employers and others. GPhA welcomes the chance to work with policymakers, regulators and stakeholders to increase generic competition and expand patient access to more affordable medicines.
